Draft Building Asset Management Plan

Share your feedback

We are seeking feedback on our Draft Building Asset Management Plan (AMP).

The Plan sets out how council proposes to manage, maintain and renew its buildings and structures over the next ten years, helping to ensure they continue to support community activities and council services.

Adelaide Hills Council manage a portfolio of 318 buildings and structures across our region with a replacement value of $114 million. These buildings form an important part of community life from halls to libraries, sporting facilities and other community spaces that people meet, participate, learn and access services.

This Draft Building AMP guides the management of buildings throughout their lives, covering acquisition, operations, maintenance, renewal and disposal.

It supports Council's Strategic Plan and informs the Long Term Financial Plan by connecting service needs, asset condition, risk, and investment priorities.

The draft Plan proposes three different levels of service for buildings and structures based on how they are used and the purpose they serve.

Safety and applicable compliance requirements apply at every level. Detailed activities, frequencies and performance measures will be developed, applied and reviewed through the Improvement Plan.

Sharing your feedback

Once you have reviewed the document, you can provide your feedback in one of the following ways:

- Complete the online feedback form at engage.ahc.sa.gov.au or via the QR code below.
- Email engage@ahc.sa.gov.au.
- Mail Community Engagement, 63 Mount Barker Road, Stirling SA 5152.
- Collect a hardcopy feedback form from any AHC Library or Customer Service Centre and submit via any of the ways listed above or by handing into our Council Service Centres or Libraries.

This engagement closes on Wednesday 16 December 2026.
