Levels of Service

The Draft Building AMP proposes levels of service for different buildings and structures owned by council based on a number of considerations:

- Strategic importance and alignment with council's priorities.
- Frequency of use and patronage.
- Range of services and user groups supported.
- Community benefit, reliance and the building's role within its township.
- Importance to Council's operations and service delivery.
- Public profile, location and tourism role.
- Risk and consequences of service disruption, including the availability of suitable alternatives.

13. Do you agree that council's buildings should have different service levels to reflect their different roles, uses and community needs?

Select one answer only
◯ Yes
◯ No
◯ Not sure

14. Do the broad definitions of High, Standard and Basic in the Draft Building AMP describe an appropriate approach for the servicing of council owned buildings?

Please see page 8 of the Draft Building AMP for service level descriptions.
