

Upcoming Works at Bracken Road Water Pumping Station

10.06.2026

The Bracken Road, Stirling tank site plays a vital role in supplying an extensive area of the Adelaide Hills with a reliable supply of drinking water for residents, meeting agriculture needs and firefighting capability.

We will be upgrading the switch board at this site, with works **commencing early July 2026 with an estimated project completion window of 3 months.**

Your water supply will not be interrupted by any on-site activities.

As part of this project, we will be removing some native vegetation to allow for the upgrades. Upon construction completion, we will undertake replanting and screening works to minimise the visual impact of the site upgrades.
