

Access and Inclusion

Share your ideas and experiences

We are seeking your ideas and experiences to inform the development of our Disability Access and Inclusion Plan 2026-2030.

Help us to create an accessible and inclusive Adelaide Hills.

Our role

Achieving the outcomes of the State Disability Access and Inclusion Plan (DAIP) requires a shared commitment across all levels of government.

Adelaide Hills Council has a vital role to play, and we will contribute through our individual DAIP that will reflect the specific responsibilities and actions most relevant and important our community.

Our role includes identifying and removing barriers and improving access to:

- Public spaces and facilities
- Council services and events
- Information and communication
- Employment opportunities within council

We're seeking your help to understand what features make a space or place accessible and welcoming and when you feel the most included and connected to your community.

Priority areas

Each of the domains below represent an area of priority and focus for state and local government during the four years of the State Plan.

Domain 1: Inclusive environments and communities

People with disability have a fundamental right to take part in all aspects of social, cultural and economic life and enjoy the benefits of an accessible and inclusive community.

Domain 2: Education and employment

People with disability have a fundamental right to achieve their full potential through education and lifelong learning, and the economic security that comes from equal opportunities within the workforce.

Domain 3: Personal and community support

People with disability have a fundamental right to access a range of in-home, residential and other community support services. This includes personal assistance necessary to support living and inclusion in the community, and to prevent isolation or segregation from the community.

Domain 4: Health and wellbeing

People with disability have a fundamental right to enjoy the highest attainable standard of health without discrimination on the basis of disability, and to be confident that measures are in place to ensure equitable access to health and mental health services and supports.

Domain 5: Safety, rights and justice

People with disability have a fundamental right to recognition before the law and to live free from all forms of exploitation, violence, abuse and neglect. This includes the right to safety and to legislative, administrative, social and educational support, and other measures that protect and uphold their dignity and wellbeing.
