

As you walk around the site, take some time to consider:

- What is the identity of Stirling?
- How does the library and the lawns contribute to this identity
- is this the Civic space of Stirling?
- Is it the Village Green?
- How is this space currently used.
- How could it better cater to current and future uses/events?

Consider the Library lawns both now and how you might imagine them in the future.

- What does the space feel like?
- What does it sound like?
- What can you smell?
- What can you hear?
- What can you taste?

MASTER PLAN EXTENT OF AREA FOR CONSIDERATION
