

## Feedback Form - Adelaide Hills Council

Information provided in this feedback form is to assist you in providing feedback on the draft Regional Public Health Plan 2022-27 for the Southern and Hills region. We recommend you review a copy of the full draft Plan (or a summary version) prior to providing your feedback, from [engage.ahc.sa.gov.au/draft-rphp](https://engage.ahc.sa.gov.au/draft-rphp), Council Libraries or Customer Service Centres or request a copy by emailing [engage@ahc.sa.gov.au](mailto:engage@ahc.sa.gov.au) or phoning 8408 0400 during business hours.

### 1. Have you read the draft Regional Public Health Plan 2022-27 for the Southern & Hills region?

- ☐ Yes, the full version
- ☐ Yes, a summary version
- ☐ No

## About you

To help us understand who is providing feedback, can you please provide the following details:

### 2. Are you providing this feedback as a (select the most relevant option below):

- ☐ Resident of the Adelaide Hills Council area
- ☐ Resident of the Alexandrina Council area
- ☐ Resident of the Kangaroo Island Council area
- ☐ Resident of the Mount Barker District Council area
- ☐ Resident of the District Council of Yankalilla area
- ☐ Resident of the City of Victor Harbor
- ☐ Other (please specify) .....

### 3. Please provide your full name (optional): .....

### 4. Please provide your organisation (if applicable): .....

### 5. Please provide your suburb/ township: .....

### 6. Please provide your age group by ticking the appropriate box below (optional):

- ☐ Under 18  
 ☐ 18 – 24 years  
 ☐ 25 – 34 years  
 ☐ 35 – 44 years  
 ☐ 45 – 54 years  
 ☐ 55 – 64 years  
 ☐ 65 – 74 years  
 ☐ 75 – 84 years  
 ☐ 85 years or over

### 7. If you would like to stay informed about the outcomes of this consultation please provide your email address.

## Shared goals and priority actions

The draft Plan (page 24) outlines **five shared goals** that the six councils will work towards over 2022-2027:

1. *PROMOTE: Stronger communities and healthier environments*
2. *PROTECT: Communities are protected against public and environmental health risks*
3. *PREPARE: Communities are aware of and responding to the health risks of climate change*
4. *PREVENT: Communities are empowered for healthy living*
5. *PROGRESS: Councils, communities and partners working together to achieve regional public health outcomes.*

In the draft Plan (pages 26, 28, 30, 32 and 33), each council has listed their top actions that they are proposing to undertake for each of the five goals. This section asks for your feedback on the top actions the Adelaide Hills council is proposing.

**8. Adelaide Hills Council has the following proposed top actions for Goal 1 PROMOTE: Stronger communities and healthier environments. Please indicate your level of support for each action below:**

|                                                                                                                                                            | Support               | Don't support         | Support with some changes (please specify below) |
|------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Facilitate and promote opportunities for social connection, volunteering and community participation to foster mental health and wellbeing              | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Encourage and support residential developments to incorporate 'livable housing design'*                                                                 | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Engage with our community and priority groups when designing new open spaces and built environments, ensuring access and health benefits for all        | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 4. Support children's early development through our community programs and services, particularly in the areas of emotional maturity and social competence | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

\* Livable Housing Australia's 'Livable Housing Design Guidelines' recommend design elements to ensure new dwellings meet the needs of residents with disability, injury and young children.

**9. Adelaide Hills Council has the following proposed top actions for Goal 2 PROTECT: Communities are protected against public and environmental health risks. Please indicate your level of support for each action below:**

|                                                                                                                                                                                 | Support               | Don't support         | Support with some changes (please specify below) |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Protect the community from public health risks through the management of immunisation programs                                                                               | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Undertake regulatory action including food safety inspections, wastewater system compliance and nuisance assessment                                                          | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Support and partner with the emergency services and the community before, during and after emergency events                                                                  | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 4. Mitigate bushfire risks by partnering with relevant agencies and the community to encourage shared responsibility and a whole-of-landscape approach to vegetation management | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

**10. Adelaide Hills Council has the following proposed top actions for Goal 3 PREPARE: *Communities are aware of and responding to the health risks of climate change.* Please indicate your level of support for each action below:**

|                                                                                                                                                                                                               | Support               | Don't support         | Support with some changes (please specify below) |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Assist our community to reduce the impact of waste to landfill on the environment                                                                                                                          | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Partner with relevant agencies (such as the Australian Red Cross) in building community-led resilience to climate change and extreme weather events                                                        | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Continue to be a partner of the Resilient Hills & Coasts* regional climate change adaptation group                                                                                                         | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 4. Promote and support community planning conversations about climate change and its impacts on health, especially with young people, including action to address the mental health impacts of climate change | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

**11. Adelaide Hills Council has the following proposed top actions for Goal 4 PREVENT: *Communities are empowered for healthy living.* Please indicate your level of support for each action below:**

|                                                                                                                                                                                  | Support               | Don't support         | Support with some changes (please specify below) |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Develop a new mapping feature on our website that promotes and increases community usage of our parks, reserves and playgrounds for preventive mental health benefits         | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Partner with our sporting clubs and relevant programs, such as Good Sports*, to build healthy club environments that encourage healthy behaviours                             | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Facilitate opportunities for people to exercise with others through events like Discover, Play, Bikeway!* and offering a variety of exercise classes at our community centres | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 4. Provide programs and classes that empower our communities to eat healthy, and grow and share their own fruit and vegetables                                                   | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

**12. Adelaide Hills Council has the following proposed top actions for Goal 5 PROGRESS: *Councils, communities and partners working together to achieve regional public health outcomes*. Please indicate your level of support for each action below:**

|                                                                                                                                                                                       | Support               | Don't support         | Support with some changes (please specify below) |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Invest in new and existing partnerships with community, business, government and other stakeholders to help achieve healthy, liveable, connected and resilient communities for all | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Develop stronger partnerships with community recreation and sporting groups to deliver wellbeing benefits from local assets                                                        | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Collaborate and partner with services and relevant community groups to deliver evidencebased initiatives that promote mental health and wellbeing                                  | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

## Focus areas for collaborative action

Under each of the five shared goals, the draft Plan (pages 25,27,29,31 and 33) identifies **focus areas for collaboration** that the six councils are proposing to work on together over 2022-2027. These focus areas were identified in response to regional challenges. Focus areas will guide regional initiatives that will involve collaboration between the constituent councils and partners. This section asks for your feedback on these proposed focus areas for collaboration.

**13. The following focus areas for collaboration are proposed for Goal 1 PROMOTE: Stronger communities and healthier environments (page 25). Please indicate your level of support for each action below:**

|                                                                                                                           | Support               | Don't support         | Support with some changes<br>(please specify below) |
|---------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|-----------------------------------------------------|
| 1. Champion the use of Universal Design* to improve the accessibility of public spaces and destinations across the region | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                               |
| 2. Maximise community usage of green open spaces for activities that support wellbeing                                    | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                               |
| 3. Share information, resources and learnings to reinvigorate volunteering and community activities post COVID-19         | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                               |

\* Universal Design involves creating facilities, built environments, products and services that can be used by people of all abilities, to the greatest extent possible, without adaptations

**14. The following focus area for collaboration are proposed for Goal 2 PROTECT: Communities are protected against public and environmental health risks (page 27). Please indicate your level of support for each action below:**

|                                                                                                                                                                                                                        | Support               | Don't support         | Support with some changes<br>(please specify below) |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|-----------------------------------------------------|
| 1. Strengthen community resilience to respond to public health emergencies and disasters, including projects that provide accessible information and build preparedness and resilience of vulnerable population groups | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                               |

**15. The following focus areas for collaboration are proposed for Goal 3 PREPARE: Communities are aware of and responding to the health risks of climate change (page 29). Please indicate your level of support for each action below:**

|                                                                                                                                                                                                  | Support               | Don't support         | Support with some changes (please specify below) |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Strengthen the climate resilience of our communities through regional partnerships such as 'Resilient Hills & Coasts'*                                                                        | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Promote community understanding of and adaptation to the public health risks associated with climate change                                                                                   | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Explore the need for a tool to assist councils' decision-makers to consider the current and future public health risks of climate change when undertaking climate risk governance assessments | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

\* Resilient Hills & Coasts is a Regional Climate Partnership between councils of the S&HLGA, Landscape Boards, Regional Development Australia and the SA Government, working to strengthen the resilience of our communities, economies and natural and built environments to a changing climate.

**16. The following focus areas for collaboration are proposed for Goal 4 PREVENT: Communities are empowered for healthy living (page 31). Please indicate your level of support for each action below:**

|                                                                                                                                                                                                                                | Support               | Don't support         | Support with some changes (please specify below) |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Encourage increased active travel and recreation (including walking, running, cycling)                                                                                                                                      | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Investigate a regional approach to walking, running and cycling trails planning, focused on the long-term planning of accessible trails that connect our council areas and significant places of interest across our region | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Identify opportunities to support children and young people develop preventive health behaviours, such as healthy eating and exercising                                                                                     | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

**17. The following focus areas for collaboration are proposed for Goal 5 PROGRESS: Councils, communities and partners working together to achieve regional public health outcomes (page 33). Please indicate your level of support for each action below:**

|                                                                                                                                                                                                                                                                                                                        | Support               | Don't support         | Support with some changes (please specify below) |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|--------------------------------------------------|
| 1. Continue to collaborate on the region-wide S&HLGA Regional Public Health Plan Working Group, including the development of regional sub working groups, where practical, to further collaborate, seek funding or advocate for equitable health outcomes for the most disadvantaged priority groups across our region | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 2. Identify and seek funding opportunities for a regional coordinator role                                                                                                                                                                                                                                             | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 3. Update, reissue and consider the Indicators of Community Wellbeing Report for the Southern and Hills LGA with new data as they become available                                                                                                                                                                     | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |
| 4. Explore the development of 'access to services and infrastructure' indicators, including research to determine what access means in regional settings and what the best measures are                                                                                                                                | <input type="radio"/> | <input type="radio"/> | <input type="radio"/>                            |

**18. Do you have any final feedback about the draft Plan that you have not already mentioned?**

Thank you for your feedback

**Please return this feedback form either:**

- via email to [engage@ahc.sa.gov.au](mailto:engage@ahc.sa.gov.au)
- via mail to Community Engagement Coordinator, PO Box 44, Woodside SA 5244
- to the same Council Library or Customer Service Centre from which you collected the form.
